

Updated Requirements: Inam Motors

1. Inventory (Car Management)

- **Car Details:** Record Make, Model, Year, Color, Chassis Number, and Engine Number.
- **Photo Gallery:** Upload multiple pictures (Front, Back, Interior) for every car.
- **Car-Specific Expenses:** Track repair costs (e.g., "Civic Denting: 5,000") and subtract them from the final profit.
- **PDF Generation:** Create a professional PDF of the car to share with customers via WhatsApp.

2. Sales & Invoicing

- **Customer Database:** Save Name, Phone, CNIC, and Address.
- **Double Invoice:** Automatically print **Customer Copy** and **Office Copy**.
- **Sale Types:** Support "Cash Sale" and "Installment Sale."

3. Payments & Installments

- **Partial Payments:** Record "Token/Down Payment" and show "Remaining Balance."
- **Schedule:** Record due dates (e.g., "10 Lakhs due on 1st March").
- **Payment Modes:** Record Cash, Bank Transfer, or Cheque with transaction IDs.
- **Reminders:** Auto-alert and WhatsApp message when a payment is due.

4. Document Tracking

- **Simple Status:** Two checkboxes per car:
 - **File Handed Over?** (Yes / No)
 - **Number Plate Handed Over?** (Yes / No)
 - *(If "No", it is assumed safe in the office).*

5. Salesmen & Profit Tracking (SECURED MODULE)

- **Salesman Tagging:** When selling a car, select **which Salesman/Investor** closed the deal.
- **Performance Tracking:**

- Track exactly how much **Net Profit** each salesman has generated for the showroom.
- *Calculation:* (Total Sales by Ali) - (Cost of those Cars) = **Ali's Profit Contribution**.
- **Security Lock:**  **CRITICAL:** This specific tab (and the "Total Profit" on Dashboard) must be **Hidden/Locked**.
 - The user must enter a **PIN or Password** to view these sensitive numbers.

6. General Expenses

- **Daily Costs:** Record Tea, Rent, Bills, Salaries.
- **Monthly Reports:** Total Expenses vs. Total Income.
